WEB DEVELOPER JR

DAVID RODRIGUEZ LEAL

OBJETIVE

I would love to collaborate to create sustainable solutions using agile methodologies and JavaScript frameworks. I am willing to learn new methodologies, frameworks, and work as a development team member. With my base knowledge of software development, I can create module oriented solutions using SCRUM and JavaScript frameworks.

PROFESSIONAL EXPERIENCE

Call Center

- REST API developed with PHP
- Create expandable software
- Completly call center simulation created with JS

Market Sales Point

- Managed projects from start to finish
